

**THUASNE**

# Ligaflex Boxer and Ligaflex Finger Braces

# Ligaflex® Boxer

## Wrist-Hand-Finger Orthosis

PDAC Approved L3807/L3809

### Indications

- Non-displaced 4th and 5th metacarpal fracture
- Postoperative 4th and 5th metacarpal support
- Following strict cast immobilization

### Comfort

- Soft fabric with foam liner to cover the injured area
- 3D inner breathable fabric for daily comfortable wear
- Finger fabric separator to protect the immobilized finger

### Immobilization

- Two shapable rigid stays for a strict immobilization from the wrist up to the finger to aid in healing
- Pre-shaped palmar and dorsal stays (dorsal = 90° and palmar = 20°) for optimum immobilization

### User-Friendly

- Full opening of the brace for easier application and positioning
- Convenient buckle loop system to tighten the brace
- Machine washable

# Ligaflex® Finger

## Wrist-Finger Orthosis

Recommended PDAC L3923/L3924

### Indications

- Long finger injuries including sprains, dislocations and fractures (functional treatment or post surgical support)
- After-effects of injuries (sprain, dislocation and fracture)

### Comfort

- Four straps, two fixed and two removable, for optimized support and fit to improve wearing comfort
- Wrist strap with anatomical shape to improve wearing comfort
- Curved top of the stay to cover and protect the finger

### Immobilization

- Unique stay with four straps to stabilize the brace
- Rigidity for strict immobilization from the wrist up to the finger
- Adaptability to fit the patient's wrist and hand shape and follow the finger angulation
- Two stay positions, palmar and dorsal, for optimum immobilization

### User-Friendly

- Full opening of the brace for easier application and positioning
- Machine washable
